

SOLA SCRIPTURA

WEEK 2, 9.2.2026

Is the Bible **enough**?

NOTES

TRUTHS TO RECOGNIZE:

1. We are constantly looking for something more.
2. God has not left His people without what they need.
3. Scripture equips the believer for faithful living.
4. When we treat Scripture as insufficient, we inevitably replace it with something else.

SCRIPTURE IS ENOUGH FOR:

1. Delight
2. Perseverance
3. Mental Health
4. Guidance
5. Life and Godliness
6. Satisfaction

KEY POINTS:

- Scripture is not everything God could have told us. It is everything God has chosen to tell us that we **need** for faith and obedience.
- Scripture gives us everything God has chosen to reveal that is **necessary** for salvation, godliness, and faithful obedience.
- We don't need more revelation, because God has given us His word. We need more hunger for the revelation He has already given us.
- If Scripture is sufficient, then Scripture doesn't need to be supplemented—it needs to be **submitted** to.
